## Puzzle: The Mystery of the Four Houses

In Ping and Zippy's neighborhood, there are four houses in a row, each painted a different color: red, green, blue, and yellow. Each house is inhabited by a family with a unique pet: a cat, a dog, a bird, and a fish. Based on the clues provided, can you figure out which family lives in which house and what pet they have?

### Clues

1. The family in the red house has the dog.
2. The green house is immediately to the right of the red house.
3. The family with the cat lives in the first house.
4. The family in the yellow house has the bird.
5. The yellow house is not the last house.

### Questions

- Which family lives in which house?
- What pet does each family have?
